Modeling is more fun when it's shared with friends. And what better way to meet new friends than to join a model car building club. The Masscar Club offers you the opportunity to share model building techniques with other modelers, and get answers to your model building questions from other experienced members. Masscar is an award-winning **IPMS chapter**, (International Plastic Modeler's Society) and was established for those modelers who enjoy building and collecting model cars and trucks.

The club meets every third Wednesday of the month, beginning at 8 pm and wrapping up by 10 pm, in Dedham, Massachusetts. The meetings are a flurry of activity: from the monthly contests to models in every possible state of construction, on display for **"show and tell."**

"How-to" demonstrations, which encompass building, detailing and painting, are a regular part of a Masscar meeting.

Occasionally, members put themselves in the spotlight by showing off their latest project, or by sharing with us how *they* got started in the hobby, by exhibiting their model collection to the other members.

The club is very active in social activities and takes regular road trips attending model shows and other outings.

Every Spring, MassCar puts on a highly successful **Model Car Exhibition**. This show (one of the largest of its kind in the northeast) is a whole day event, chock full of model contests, seminars, vendor room, and fun events such as model bingo and a kit auction. It's a great day of fun for the whole family, kicked off the night before by a banquet dinner.

As you can see, being part of this group can truly be fulfilling—have lots of fun times, and meet some great people who share your interests in cars and modeling.

For members who cannot make the meetings due to work or other commitments, we'll keep you informed with our monthly **Club Newsletter**, which is filled with articles, how-to information, and articles submitted by members. **Masscar's website: www.masscar.com** has lots to offer: timely information, including show dates for upcoming events, archived articles to sharpen your model building skills, members' profiles, links to other clubs, model reference and supply information, and each member can have his or her own personal webpage. Check this out now, if you haven't already done so!

Join the club that puts **YOU** up front. We've provided an easy-to-fill-out application below. So what are you waiting for?

Masscar Model Club meetings take place at:
150 Rustcraft Road, Dedham, Mass.
Every month, we meet on the second Saturday starting at 1pm and the third Wednesday starting at 8pm.
Meetings typically last about 2 hours.
